**JOLLY TIME
 POPCORN**
 SEAL-WORTHY
 SINCE 1925

OUR LONGEST continuous Seal holder and the first branded popcorn in the U.S. turns 100 this month (happy birthday!). Jolly Time sources millions of pounds of non-GMO kernels a year from local family-owned farms in the Midwest. When it first earned the GH Seal, popcorn was considered a treat. These days, it's a health food. Studies have shown that the whole grain is low in fat and high in fiber and antioxidants. And that's what's poppin'.

Spotlight NEW & APPROVED!

We've run tests, our engineers and scientists have reviewed data and we're proud to announce that these products have officially earned our iconic GH Seal

DYSON BLADELESS FANS

We're huge fans of these fans: sleek, easy to clean, safe (no blades for small fingers to get stuck in), beautifully designed and super-quiet. The new desk, tower and pedestal models all earned the GH Seal.

Dyson Cool, \$300 to \$450, dyson.com*

*DYSON AM06, AM07, AM08

VICHY ANTI-AGING SERUM

Our Beauty Lab staff was impressed after poring over research documenting improvement in women's skin tone and radiance. Eight days of use led to positive results, thanks to an exclusive ingredient derived from jasmonic acid.

Idéalia Life Serum, \$44, vichyusa.com

FARBERWARE 2-SLICE TOASTER

You'd be surprised how many toasters fail to make the grade. Our Kitchen Appliances Lab toasted dozens of slices of bread on each setting...to seven shades of toasty perfection!

2-Slice Toaster, \$25, 4-Slice, \$35, exclusively at Walmart
